Moats of Brooklyn, New York. As the result of said accident, traffic signal flashers and wooden barricade was damaged and had to be replaced.

Mr. Moats who was uninsured at the time of the accident did not respond to correspondence addressed to him in connection with this accident. Suit was therefore instituted by the Claims Bureau against the debtor in the Mercer County District Court. Upon receipt of the suit papers, Mr. Moats contacted the Claims Bureau and pleaded financial hardship and requested a reduction in the claim and permission to liquidate the claim on a monthly installment basis. This office after discussing the proposal with counsel of the Highway Department agreed to accept the sum of $750.00 in full settlement of this claim, $500 to be paid immediately and the balance at the rate of $20.00 a month. A Settlement Agreement was executed and Mr. Moats paid the sum of $620.00 towards the $750.00 offer.

We recently were notified by William C. Moats, son of the debtor, that his father had passed away and his total value at death amounted to $45.51 which was applied to his funeral cost. I am attaching, hereto, copy of said letter from Mr. Moat's son which is self-explanatory.

In view of the foregoing and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack, it is our recommendation that the balance of this claim amounting to $250.45 be cancelled. (October 3, 1969)

The examination of title to the property discloses that a strip of land approximately 8 feet wide running the entire length of 146.51 feet along the Northeasterly property line is a part of a 12 foot wide private right of way known as Fuller Drive. The right to use this drive is held by owners of lands both adjoining the parcel being acquired and property lying beyond it. The owner has been unable to secure releases of the outstanding rights.

The owner has agreed to a deduction of $500.00 from the consideration to be paid, making the agreed purchase price $27,000.00 by reason of her inability to secure the releases. This Department is willing to accept title subject to the right of way and therefore, recommends the acceptance of the owner's offer and to make payment of the reduced price in the amount of $27,000.00. (September 30, 1969)

117 There is presented again the matter of acquisition of a slope easement on Route 37, Section 4A, From Garden State Parkway To Washington Street, Parcel E130. A purchase agreement in the sum of $350 covering the conveyance of Parcel E130 between Kenneth R. Sanford and Agnes M., h/w, was approved by the Commissioner on June 19, 1967.

Prior to the date set for closing on October 6, 1967, Mr. and Mrs. Kenneth Sanford conveyed the lands covering this easement to Solomon Rabstein and Shirley, h/w on September 13, 1967. Negotiations were then conducted with the new owners who advised that they would not honor the agreement executed by their predecessors in title. The engineers have reviewed the necessity of acquiring this slope and on September 2, 1969 they advised that the slope was not required for present construction and the parcel has, therefore, been eliminated. The new owners have been so advised.

Authority is requested to rescind the commission action of June 19, 1967 and that the agreement between Kenneth R. Sanford, et ux and the State of New Jersey, dated June 6, 1967 be considered null and void. (September 30, 1969)

118 There is presented again the matter of acquisition of property on Route 37 Freeway, Section 1, From Route U.S. 206 To New Jersey Turnpike, Parcel 21A, The Township of Hamilton, a Municipal Corporation of New Jersey.

An agreement was previously approved on January 13, 1969 for Parcels 21A and 21B in the amount of $4,750. Prior to closing it was determined that the Township of Hamilton could not convey Parcel 21A due to this parcel being part of dedicated park land and also that there was an outstanding interest in this property owned by the unknown heirs of Charles G. Teunon, deceased.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 21A in fee simple, subject to any public utilities existing in the premises; and that the previous action dated January 13, 1969, covering Parcels 21A and 21B, be rescinded.

Route 129 Freeway

120 There is presented the matter of the demolition of the one-story cinder block building, two-story frame dwelling, and one-story concrete block service station located on Route 69 Freeway, Section 1, From the Vicinity of Pennington Circle to Route U. S. 1 in the Vicinity of Slackwood, Parcel 3; and Route 129 Freeway, Section 3, Federal Project U-203-(6), From Federal City Road to Route U. S. 1, Parcel R28. This demolition is necessary to prevent injury to the general public due to the unsafe condition of the structures.

We are in receipt of two estimates for the required demolition which are as follows:

R. J. Heaton, Inc.	$2,606.00
J. Vinch and Sons	2,719.20

The low bid in the amount of $2,606 is in excess of the $2,500 ceiling set on contracts which may be programmed by the bureau supervisor. However, it is not in the best interest of the general public to delay the demolition, which delay would result if it is necessary to program a formal demolition contract.

It is, therefore, recommended that the $2,500 ceiling be waived in this instance and that the bid proposal submitted by R. J. Heaton, Inc. in the sum of $2,606 be submitted to the Commissioner of the Department of Transportation for approval and the low bidder be authorized to begin the demolition immediately. (September 30, 1969)

The State's Registered Fair Market Value Determination for Parcel 141 of $750. and $300. for the damaged Remnant was offered to and refused by the owner whose combined demand of $1,800. for Parcel 141 plus Remnant is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $1,050.

(September 30, 1969)

122 There are presented report and appraisal with map and description on Route 76 (1953), Section 1, Federal-aid Project I-76-8-(12), From Benjamin Franklin Bridge to Kaighn Avenue, Parcel 888, Esther Osgenel Co.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owner's demand of $50,500 is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Court $35,500.

It is further recommended that authority be granted to enter upon the owner's remaining lands to remove in its entirety the dwellings designated as 789, 791, and 793 Kaighns Avenue lying partly in the highway right of way and partly outside said right of way.

Upon taking of possession, authority is requested to dispose of the three dwellings designated as 789, 791 and 793 Kaighns Avenue to the road contractor, by public auction, or by sealed bids. (October 3, 1969)

Right of Way - Route 78

123 There is presented again the matter of acquisition of property on Route 78 (1953), Section 4C, Federal-aid Project I-78-4-(5), Myers Road to Diamond Hill Road, Parcel 15A, Free Methodist Church of North America.

Condemnation proceedings were previously authorized by the Commissioner on October 14, 1965, at which time the owner's demand of $150,000 was considered excessive. The reviewer's registered Fair Market Value of $39,700 was deposited with the Superior Court on September 13, 1967.

Subsequently, an appraisal updating to the date of complaint resulted in the Fair Market Value being re-registered in the sum of $59,450, which was offered to and refused by the owner's agent whose demand in excess of $100,000 is considered excessive.

Authority is now requested to deposit in the Superior Court the additional sum of $19,750 making the total on deposit the sum of $59,450. (September 30, 1969)

Right of Way - Route 80

124 There is presented again the matter of acquisition of property on Route 80, Section 1E, Parcels 34, X34B and X34C, Fred G. Laue, et al. On December 23, 1968 the Commissioner approved a condemnation commissioners' award in the sum of $16,050 which amounted to $2,050 over and above the State's registered fair market value of $14,000 which had been deposited in the Superior Court and authorized payment in the sum of $16,050.

Subsequently during meetings to achieve closing and make the $2,050 final payment it developed that the owner had no attorney. Further, he is an elderly man and the sole support of a blind brother. For this reason he is unable to undertake the steps necessary to withdraw the deposit from the court without hardship.

To alleviate this situation it is not only compassionate but in the public interest for the State to arrange to withdraw the deposit and make the full payment of $16,050 plus lawful interest directly to the owner.

Authority is therefore requested to pay the commissioners award to this owner the sum of $16,050 plus lawful interest as computed by the Bureau of Titles and $700 interest accured on the court deposit of $14,000 to be withdrawn from court. (September 29, 1969)

Right of Way - Route 80

125 There is presented again the matter of acquisition of property on Route 80, Section 4E, Federal Aid Project I-80-4-(10), from Two Bridges Road to Glover Avenue, Parcel 122A, B, Oliver Terhune & Josephine, h/w. Condemnation proceedings were authorized on August 10, 1967 as the owner's demands were considered excessive. On October 4, 1967 the sum of $8,860, representing the registered Fair Market Value, was deposited with the Superior Court.

Subsequent thereto, the appraisals were updated to the complaint date and an allowance was made for an extension of the temporary detour road easement from one year to 21 1/2 months and the Fair Market Value was re-registered in the sum of $21,500 which was offered to the owner who now demands $28,000. Authority is therefore requested to deposit the additional sum of $12,640 with the Superior Court making a total deposit of $21,500.

(September 30, 1969)

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels in fee simple, subject to any public utilities existing in the premises. The State's registered Fair Market Value of $17,000 was offered to the owner's attorney, Mr. Becker, who stated the case should proceed to condemnation.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $17,000.

136 There is presented the matter of the Judgment in the condemnation of property on Route U. S. 9, Section 22, Parcel 17, in the County of Monmouth, owned by Maplewood Cemetery Company of Freehold, a corporation of New Jersey; et al.

The commission award was in the amount of $8,357 and the property owner appealed. A deposit into court was made on March 1, 1967 in the amount of $8,450. Fair market value was reregistered prior to trial in the amount of $6,300.

The property owner testified in the amount of $18,100 and the State testified in the amount of $6,300, its fair market value. The jury verdict was in the amount of the State's fair market value, $6,300.

It is recommended that appropriate action be taken to recover the $2,150 difference between the amount of the jury verdict and the amount of the deposit into court. (October 3, 1969)

Right of Way - Route 33

140 There is presented here the matter of the suit against the State in mandamus to compel condemnation, Docket No. L 15390-67. The owners contend that the State has constructed a curb and return on their property and the State contends that the curb and return is solely within the State and/or County owned property. The property involved is a strip along Corlies Avenue from 10 to 30 feet wide.

The County of Monmouth, a co-defendant, takes the position that it owns a 33 foot right of way; that, having done nothing, it should pay nothing. If, in fact, the State is wrong, the State will be required to buy, in addition to the lands in question, a sidewalk area. N.J.S.A. 20:1-35.

It appears that the owners have color of title by deed from their predecessor and prior interest in title. The question to be presented to the Court is one of a beginning point and survey to determine the location of the property in relationship to Corlies Avenue, Old County Road and New Jersey Route 33. In the event that the factual contention of the State is rejected by the Court, the same will result in an extensive acquisition by the State, particularly as to damages to remaining improvements (Carvel Soft Ice Cream Drive-In).

At the commencement of trial, Judge Simmill suggested a compromise; namely, a payment of a lump sum by the State and the co-defendant, the County of Monmouth, for a deed to the property in question. After extensive negotiations and for purposes of settlement, the County agreed to make a contribution of $500 toward a total settlement of $2000.

Accordingly, it is hereby recommended that the State participate in settlement of this litigation to the extent of $1,500 in exchange for a bargain and sale deed without covenants to the premises in question. (October 3, 1969)

Claims - Settlement

13 This claim arises out of an accident which occurred on Route 17, Ramp Rt.4, Paramus, New Jersey, and resulted in injury to George N. Johnson, an employee of the New Jersey Department of Transportation, Equipment Division. As a result of this accident, the Department was required to expend the sum of $106.00 for medical treatment and X-rays, and $1320.00 for permanent compensation, making a total of $1426.00. Mr. Johnson did not lose time from work as a result of this injury.

Insomuch as subject accident involved a third party, Mr. Johnson retained an attorney to represent him and a suit was subsequently instituted in the Superior Court on his behalf. In view of the fact that only $106.00 was expended for medical treatment, the attorney received an offer of settlement of $700.00 and based on this offer the State would receive 50% of the total settlement. The offer was not accepted and was subsequently raised to $800.00 and finally to $900.00, with the State to receive 50%, or $450.00. If the Department had received the entire settlement of $900.00, it would be subject to the usual one third counsel fee and receive $600.00 which would be subject to expenses of suit up to $200.00, or a net recovery of $400.00. The enclosed copy of attorney Joseph G. Sproviere's letter dated October 3, 1969 which outlines his recommendations is self-explanatory.

Giving due consideration to the foregoing, it is my recommendation that this offer of settlement receive favorable approval in accordance with Mr. Levine's memorandum dated October 10, 1969, attached hereto, and the recommendation of the New Jersey Department of Transportation Deputy Attorney General. 125 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 80, Section 5K, Parcels 205 & 206, owned by the Township of South Hackensack, in the County of Bergen, a municipal corporation of New Jersey; et al.

At the commission hearing the sum of $25,325 for parcel 205 and $2,586.50 for parcel 206 was awarded. The State appealed.

At the jury trial the owners offered testimony in the sum of $66,700 for the two parcels and the State offered testimony in the sum of $5,335. The sum of $5,300 was deposited into court on April 19, 1967.

The jury returned a verdict in the amount of $23,030 for parcel 205 and $3,620 for parcel 206 for a total of $26,650.

Appeal from this verdict is recommended on the basis that in Mr. Clark's opinion it should have been added that the property had no value and the court should not have removed these items of consideration from the jury.

Trial counsel has ordered a transcript of the proceedings and has filed a protective notice of appeal to the Appellate Division.

No appeal is recommended since the award seems fair and reasonable, not excessive and, since this case is more than two years old the cost and expense of appeal and trial by jury has been considered in the recommendation to accept the award. Approval of the Commissioners' award is therefore recommended as in the public interest. **(October 20, 1969)**

At the hearing before the Commissioners which was held on September 29, 1969, an award of $475.00 was granted. Fair Market Value was registered in the amount of $250.00. The defendants did not appear. The amount of the State's offer of $250.00 was stipulated and the State's appraiser did not testify. The Complaint was filed on April 9, 1969 and there was no deposit made in the Court.

The State was represented by Fee Attorney Louis C. Portella.

It is recommended that the award in the amount of $475.00 be approved and payment in the sum of $475.00 be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered fair market value and the payment of the award is recommended as in the public interest.
(October 20, 1969)

It is recommended that the award in the amount of $47,000.00 be approved as it would be in the best interests of the State to accept it in view of the fact that current land values in the area of the subject have increased.

It is also recommended that payment in the sum of $3,000.00, being the amount over and above the State's Fair Market Value be paid together with lawful interest as computed by the Bureau of Titles.

✓ **Right of Way - Route 4 Parkway**

62 There is presented again the matter of acquisition of a utility easement on Route 4 Parkway, Section 21, From Pennsylvania Railroad at Toms River to Route 4 Connection at Cassville Road. Condemnation proceedings were previously authorized on February 5, 1968, at which time the owner was demanding $15,[illegible].

Subsequently, the appraisals were updated to the complaint date. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R37	The General Tire Realty Co.	Consideration $132,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $120,000. Prior to a Commission Hearing, the Deputy Attorney informed the Right-of-Way Division that the owner reduced his demand and that a settlement in the amount of $132,000 could be secured. He further informed us that in his opinion an award could not possibly be achieved under this settlement if this proceeded to a hearing or even a trial. The Director concurred in the Deputy's recommendation for settlement as being reasonable and in the best interest of the State. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking.

It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or sealed bids. (October 23, 1969)

64 There is again presented the matter of acquisition of property on Route 33 (1953), Section 3, From Hickory Corner Road To Middlesex County Line, Parcel 9, John C. Henzler and Thelma H. Henzler, h/w. Condemnation proceedings were previously authorized for Parcel 9 on October 19, 1967, at which time the State's suggested settlement of $900. was offered to and refused by the owners, whose demand that the proposed open ditch be piped by the State, was considered excessive.

Subsequently a map revision was required and the appraisal was amended. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R9	John C. Henzler and Thelma H. Henzler, h/w	Consideration $800.

The parcel having been appraised and the Reviewer's Registered Fair Market Value Determination being $800., it is recommended that this agreement be approved, and that the condemnation proceedings previously authorized on October 19, 1967 be discontinued.

Further authority is requested to withdraw the deposit of $900. heretofore made into the Superior Court under Declaration of Taking. (October 21, 1969)

Rockafellow, Jr. and Olga Rockafellow, h/w. Condemnation proceedings were previously authorized on April 1, 1968, at which time the State's suggested settlement of $9,350. was offered to and refused by the owners whose demand of $16,000. was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 73	John D. Rockafellow, Jr. and Olga Rockafellow, h/w	Consideration $9,350.
	Less allowance to State for owners' retention and removal of 1½ story frame dwelling	$ 600.
	Net Cash Consideration	$8,750.

66

Right of Way - Route 35

There is presented again the matter of acquisition of property on Route 35 (1953), Section 10, From Morristown Road To Route 36, Parcel 64, B & B Auto Radiator & Glass Co. (A N. J. Corp.). Condemnation proceedings were previously authorized on April 21, 1966, at which time the State's Suggested Settlement of $6,150. was offered to and refused by the owner, who was unable to negotiate.

Subsequently, after the owner had actually cut-off and reconstructed the front of his building so as to accommodate the highway widening a review of the cost to cure estimates and the actual costs incurred by the owner resulted in an updating of appraisals, which resulted in the Fair Market Value being re-registered in the amount of $12,100. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 64	B & B Auto Radiator & Glass Repair Co. (A N. J. Corp.)	Consideration: $12,100. (Including a court deposit of $6,150. previously withdrawn)

This agreement is inclusive of all claims against the State including interest. It is recommended that this agreement be approved and that condemnation proceedings previously authorized by discontinued.

Authority is requested to make payment in the sum of $5,950. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the court and to withdraw the additional deposit of $1,150. made into the Superior Court April 22, 1968.

Inasmuch as the dwelling and the porch have been demolished by the owner, and the portion of the garage within the taking has been removed from within the limits of the Right of Way and slope area, no further authority for disposal of improvements is necessary. (October 24, 1969)

67

Right of Way - Route 72

There is presented again the matter of acquisition of property on Route 72 (1953), Section 6, From Union-Stafford Township Line To Route U.S. 9, Parcels 7A2 and 7A3, Anthony Mascolo and Jo Ann, h/w. Condemnation proceedings were previously authorized on February 2, 1966 at which time the State's suggested settlement of $9,050 was offered to and refused by the owners whose demand of $15,000 was considered excessive.

Subsequently, a Commission Hearing was held on February 25, 1969 and an award was rendered in the amount of $15,000 which was appealed by the State.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels 7A2 & 7A3	Anthony Mascolo & Jo Ann, h/w	Consideration $12,750.

This is a substantial reduction from the award. The taking is partial with damages to a dwelling, and the Trial Attorney is of the opinion that to prosecute the appeal would not result in a verdict lower than the settlement. Further, the case is over two years old and interest which the owner would be awarded plus court costs would equal or exceed the variance from the Reviewer's $9,100 determination of Fair Market Value. The settlement is, therefore, in the best public interest; approval is recommended.

It is further recommended that the condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit of $9,050 heretofore made into the Superior Court under Declaration of Taking. Inasmuch as the building has since been removed, no further authorization in regard to improvement disposal is necessary. (October 21, 1969)

Parcel 673 Mrs. Annie Gilbert, widow Consideration $24,000.
including down payment of $6,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $23,000. The variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued. It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or sealed bids.
(October 23, 1969)

69 There is presented again the matter of acquisition of property on Route 80 (1953), Section 1E, Federal-aid Project I-80-1-(11), Delaware-Knowlton-Blairstown Road to Great Road. Condemnation proceedings were previously authorized on March 20, 1967, at which time the owner made a demand for $90,000 for these and other parcels being taken from this owner.

Subsequently, at the request of our Legal Division, an excess appraisal was ordered which resulted in the State's fair market value being re-registered in the amount of $2,500.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 37D & 37F Santo C. Pezzutti & Gertrude, h/w
& John J. Lucci & Jane, h/w Consideration $3,150.
including the court deposit of $2,100.
previously withdrawn by the seller

This parcel has been appraised and the Reviewer's re-registered Fair Market Value determination is $2,500. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $20,250. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $1,250. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

The improvements have been removed by the contractor in the performance of his duties. (October 21, 1969)

Continued negotiations have resulted in an agreement in which the owners' are to retain the damaged remnant X211B and executed agreements were secured as follows:

Parcel 2R211 Frances Furlong & Bernard, h/h Consideration $33,700.
Less: Allowance to State for retention & removal of dwelling................$2,000.
Allowance to State for conveyance of Parcels X215B & X214B2.........$5,800.
$ 7,800.
Net Cash Consideration $25,900.

Claims - Settlement

4 The Department of Transportation is carrying a claim against Jackson G. DeBolt in the amount of $554.38 arising out of an accident occurring on December 9, 1966 involving a vehicle owned and operated by Mr. DeBolt resulting in damage to traffic signal equipment.

Upon being presented with a bill in the amount of $554.38 covering the cost of making necessary repairs to the traffic signal equipment, the insurance company for the debtor offered the sum of $210.00 to dispose of this claim from a nuisance value. The insurance company contended that their assured was not totally responsible for what occurred due to the fact that the traffic signal at the time was stuck. The State Police Report substantiates the insurance company's position with reference to the stuck traffic signal.

The offer of $210.00 was rejected and suit was instituted by the Claims Bureau in the Mercer County District Court. Subsequent negotiations with the insurance company has now resulted in an offer of $325.00. The offer was discussed with counsel for the Department of Transportation who feels the offer should be accepted in view of the circumstances involved in this case.

In view of the foregoing and giving due consideration to the cost involved in the event we elected to proceed with the trial of this matter, we feel the offer of $325.00 is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William McCormack that the offer of $325.00 be approved. **(November 3, 1969)**

Claims - Cancellation

5 The Department of Transportation set up a claim against Stelling, Lord-Wood and Van Suetendael in the amount of $9,056.78 in 1960 in connection with an overpayment made on a Design Engineering Contract for Route 20, Section 4A. The claim was reduced by Mr. Stelling by periodic installments until it was reduced to the present balance of $2500.00. The last payment was made on August 31, 1965.

The firm subsequently went out of business and Mr. Stelling pleaded inability to pay for financial reasons and due to ill health. I am attaching, hereto, notice of the United States District Court indicating that A. Carl Stelling filed a Petition in Bankruptcy on May 19, 1969. The Claims Bureau has checked this petition and have ascertained that this creditor's liabilities exceeds his assets and that no dividends will be paid unsecure creditors and the State falls in this category.

In view of the foregoing it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that the claim being carried against A. Carl Stelling in the amount of $2500.00 be cancelled. **(November 3, 1969)**

Right of Way - Route 440 Freeway

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 440 Freeway, Section 1, Parcel E 254, in the City of Perth Amboy, owned by Joseph Glodic, et al.

At the hearing before the Commissioners an award of $375.00 was granted. The Fair Market Value was registered in the amount of $150.00. The owner testified to the fact that she felt she was entitled to more than $150.00 the Fair Market Value. The State's expert testified to $150.00 for the slope and drainage easements of an improved parcel. There was a deposit paid in the Court in the amount of $150.00 on October 7,1969.

The State was represented by Fee Attorney Jonathan M. Heilbrunn.

It is recommended that the award in the amount of $375.00 be approved and payment in the sum of$225.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest.

Claims - Cancellation

6 The Department of Transportation is carrying a claim against the Borough of Freehold in the amount of $1,616.01 under Electrical Claim #5520 covering the Borough's share of installation of semi-actuated traffic signal at the intersections of Route 79, County Road 537, Spring and Center Streets, Freehold Borough, Monmouth County. I am attaching, hereto, letter dated March 29, 1967 from the Borough Engineer, together with a copy of a letter dated April 3, 1967 addressed to the Borough Engineer by William Salb, Head Clerk, Division of Traffic Engineering, both of which are self-explanatory.

Inasmuch as this claim was billed against the Borough of Freehold in error, and should have been billed to the County of Monmouth, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that the claim now being carried against the Borough of Freehold in the amount of $1,616.01 be cancelled. (November 12, 1969)

Claims - Settlement

7 The Department of Transportation is carrying a claim against Irva H. Collins and Willard Collins, III in the amount of $569.81 resulting from an accident occurring on November 30, 1967 involving a vehicle owned by Irva H. Collins and operated by Willard Collins, III, and a vehicle and Hydro Spreader owned by the New Jersey Department of Transportation, operated by Arthur E. Connors, Jr. As the result of said accident the damage to the State vehicle amounted to $569.81.

Upon being presented with a bill covering the cost of making necessary repairs to the State vehicle, the attorney for the insurance company for the debtor offered the sum of $400.00 to dispose of this claim from a nuisance value. The insurance company contended that their assured was not totally responsible for what occurred due to the fact that the State vehicle was contributorily negligent. Prior to the discussion of the settlement suit was instituted by the Claims Bureau in the Bergen County District Court. Subsequent negotiations with the attorney for the company has now resulted in an offer of $400. The offer was discussed with counsel for the Department of Transportation who feels the offer should be accepted in view of the circumstances involved in this case.

In view of the foregoing and giving due consideration to the case involved in the event we elected to proceed with the trial of this matter, we feel the offer of $400 is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that it be approved. (November 12, 1969)

Right of Way - Reimbursement of Incidental Title Costs

116 The 1968 Federal State Highway Act ratified by the New Jersey Legislature under Chapter 393 Laws of 1968 obligates the State to make reimbursements to owners for expenses incidental to conveying title to the State effective on matters closed after January 2, 1969.

Agreements made prior to that date and others submitted to the Commissioner for approval during the interim period essential for the Department to re-organize to accommodate to the conditions of the new law did not contain a provision for the State to make such payments. It is, therefore, necessary to seek appropriate authority.

There are sufficient funds existing in the Right of Way Projects; therefore, no set-up of funds is needed, but if funds are needed in any of the Right of Way Accounts, they will be transferred from available Right of Way balances.

Authority is requested to make these reimbursements and payments as obligated by the law upon recommendation and approval of the Title Bureau of individual invoices on all past, present and future projects until all agreements executed by owners contain a provision covering the reimbursements for eligible title cost reimbursements as now provided for by the law. 126 There is presented the matter of a commissioner award entered against the State in the condemnation of property on Route 29 Section 15, Parcel 34, owned by J. George Jurgens; et al.

At the hearing the State's witness testified to a value of $200. Some of the owners appeared pro se.

Right of Way - Route 45

127 There is presented again the matter of the appeal from the condemnation award entered against the State for condemnation of property on Route 45, Section 1, Parcel 3 in the Township of West Deptford, owned by Glenn C. Anderson; et al.

At the hearing before Commissioners testimony on behalf of the State was in the sum of $24,350.00 and the testimony on behalf of the property owner was in the sum of $43,725.00.

The fair market value was registered in the sum of $24,350.00, which amount was deposited in the Superior Court Clerk's office.

The Commissioners' award was in the sum of $32,250.00.

The appeal was tried on May 22, 1967 and the verdict was in the sum of $33,000.00 and judgment was entered on July 11, 1967.

On September 16, 1969 commission action was approved wherein it was set forth that the owner had withdrawn the deposit of $24,350.00 and judgment was entered for the difference between the verdict of $33,000.00 and the deposit of $24,350.00 which was withdrawn, together with interest as computed by the Court, to wit, $9,160.00.

It now appears that interest had been erroneously computed on an excess sum of $8,500.00 instead of $8,650.00 and that the Judgment has now been amended and entered in the excess sum of $8,650.00, together with interest at 6% per annum from July 11, 1966, amounting to $529.00, making a total sum of $9,179.00.

It is therefore requested that the commission action approved on September 16, 1969 be rescinded, and authority is requested to pay the sum of $9,179.00, together with interest from July 11, 1967 to the date of payment to be computed by the Title Bureau.

The State was represented by Fee Attorney Albert L. Levy.

It is recommended that the award in the amount of $31,000.00 be approved and paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; and the payment of the award is recommended as in the public interest. (November 12, 1969)

138 **Right of Way - Route 295**

There is presented here the matter of the appeal from the award of Commissioners in the condemnation of property on Route 295, Section 5, Parcel 37, in the Township of Bordentown, owned by Anna E. Lawrence; et als.

At the hearing before the Commissioners an award of $35,200.00 was granted. Fair Market Value was registered in the amount of $28,700.00. The owner's witness testified to $44,641.00. The State's expert testified to $28,700.00 for the partial taking and damages to remaining lands of an improved parcel. There was a deposit paid into Court in the amount of $28,700.00 on September 9, 1968.

The area of the taking is 9.567 acres which the State's appraiser valued at $3,000.00 per acre, for a total of $28,700.00. He neglected however, to add as damages to this landlocked remainder of 2.2 acres at $2,400.00 per acre, or $5,300.00, for a total value of the acquisition of $34,000.00. The owner wants $35,200.00. It is recommended that the award of $35,200.00 be paid since a jury would award at least that much if not more and as being in the best interest of the State. It is further recommended that the pending appeal be dismissed.

This is a corrected Department Action Slip. (November 12, 1969)

The award was in the amount of $150.00.

The State was represented by Fee Attorney, John A. Hila.

It is recommended that the award in the amount of $150.00 be accepted since it is precisely the amount of the State's registered Fair Market Value. It is further recommended that the sum of $150.00 be paid together with lawful interest as computed by the Bureau of Titles. (November 12, 1969)

This agreement obligates the State to provide the United States of America with a title policy insuring Parcel V1B2 at an amount equal to the value of the premises. A title policy was issued by the Title Guaranty Company of Hackensack in the amount of $10,500.00 which was the value of the land only.

Subsequently, the United States of America contended that the amount of the title policy should be increased to also cover the value of the building constructed by the State as a replacement facility as it adds to the value of the realty. An opinion from the Department of Law concurs.

The value of the replacement facilities is $132,000.00. Condemnation proceedings were previously authorized on April 23, 1965, at which time the owners demand of $15,000 was considered excessive while the State's Fair Market Value had been registered in the sum of $2,350. Subsequently, the State's engineers confirmed the fact that the State had removed 14,500 cubic yards of fill outside the taking area of Parcel 109, which had not been included in the Fair Market Value of $2,350. The engineers found that the railroad's estimate of $8,350 for the fill that had been removed was reasonable. Simultaneously, an updated appraisal resulted in the Fair Market Value for Parcel 109 being raised to $6,000; which resulted in a new Fair Market Value (including value of the removed fill) being established in the sum of $14,350. This sum was offered to the owner on June 4, 1969. However, repeated contacts by the State's negotiators have failed to elicit any indication from the railroad as to whether they will accept this sum.

Therefore, authority is requested to deposit the re-registered sum of $14,350 in the Superior Court. (December 15, 1969)

Subsequently, an updated appraisal was secured which has resulted in the Fair Market Value being raised to $32,400.

Authority is therefore requested to deposit the additional sum of $5,900 in the Superior Court, which when added to the sum already on deposit, will equal the State's Re-Registered Fair Market Value of $32,400. (December 15, 1969)

Administration Items

Agreement
Jane Petrie

1 Approval is recommended for the proposal to enter into an agreement with Jane Petrie, Alta Vista Drive, Princeton, New Jersey, for the purpose of developing and conducting in-house training programs for data processing and non-data processing Departmental personnel. More specifically, the training recommendations will be made in three program areas. The first program will be developed for new Programming Trainees and will consist of a series of "bench mark" evaluation programs with an assembler language orientation. The objective of this program will be to use the assembler language as a means to acquaint new personnel with general data processing techniques including the actual operation of the computer hardware.

The next step in this program will be to train the programmers in a higher level language, such as PL/1, as this would be the language in which future programming assignments would be given.

The second program would be a program oriented to present data processing personnel and would be a broad ranging program to acquaint the present staff with new concepts in data processing, such as multi-programming, on-line inquiry, variable length records and tele-processing to more effectively utilize our new computer hardware.

The third program would be oriented to non-data processing personnel who by the nature of their job must interface with the data processing systems and programming projects. The objective of this particular course would not be to train the individuals to be systems analysts or programmers but to transfer sufficient knowledge of data processing techniques and procedures so that they will be in a better position to formulate proposals within their own organizations for computer application and document control.

2

The development of these training programs and related activities will be completed at a cost of $3,869 within sixteen (16) working weeks from commencement. (December 22, 1969)

Claims - Settlement

5 The Department of Transportation is carrying a claim against Joseph Reggie in the amount of $170.31 arising out of an accident occurring on March 16, 1966 on Route #23, West Milford Township, involving a vehicle owned and operated by Joseph Reggie. This claim arises out of the cost of repairing departmental guardrail damaged as the result of this accident.

The insurance carrier for this debtor declined payment of this claim on the grounds that their investigation definitely showed an unidentified vehicle the proximate cause of the accident. Subsequent negotiations by the Claims Bureau resulted in an offer of $100.00 in full settlement of this claim. Deputy Attorney General Harry Irwin reviewed our file and feels there is a question of liability involved in this case and feels the offer of settlement is fair and should receive favorable consideration.

It is therefore our recommendation that the offer of $100.00 in full settlement of this claim be approved and accepted in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack. (December 24, 1969)

In addition, the Consultant has recently been requested to prepare maps to conform to a design public hearing requirement that must also be considered as "extra." To compensate the Consultant for this work, additional funding in the salary account is required.

There is presently appropriated $150,000 in the direct salary account plus $90,700 in "other items." As the work is almost complete, it is recommended that the sum of $17,000 be transferred from the $90,700 items to the basic work item establishing a ceiling of $167,000 and $63,700 respectively. This transfer will require no additional funding at this time. **(December 29, 1969)**

Additional information is attached for the purpose of evaluating the requested approval. The attachments include a picture of the property; a map showing the location in red with respect to Interstate 80; a memorandum from the Morris County Historical Society detailing the accomplishments to date and a report by Professor Edward S. Claims - Cancellation

The Department of Transportation set up a claim against the Thriftway Leasing Co., Inc. under Electrical Claim #5433 in the amount of $579.33 arising out of an accident occurring on May 29, 1965, involving a vehicle owned by the Thriftway Leasing Co., Inc., operated by Quentin Jenkins. As the result of said accident traffic signal equipment was damaged and had to be repaired at a cost of $579.33. This bill was prepared under date of August 10, 1965.

The Maintenance Division of the Department of Transportation also had a claim arising out of this accident in the amount of $78.80 covering the cost of repairing departmental guard railing. This bill was prepared in June 1966.

When settlement was being discussed, the investigator for the Claims Bureau inadvertently overlooked the revised billing setting down the Maintenance Division charges and proceeded to settle the case on the basis of the Electrical Division charges only. A draft was received for $579.33 in full settlement of the Electrical Division charges and was forwarded to Mr. George Bridegum under date of October 31, 1969.

Inasmuch as the Department executed a release of all claims arising out of this accident, it is our recommendation that the Maintenance Claim #5337 be cancelled. It might be pointed out that the Claims Bureau was authorized to grant the sum of $23.04 as a salvage allowance on the Electrical Division claim which they did not grant, and taking this into consideration, the Maintenance claim could be reduced to the sum of $55.76.

In view of the foregoing it is our recommendation that the Maintenance Claim #5337 be cancelled and removed from the Department's books in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack. **(December 31, 1969)**

Right of Way - Route 24 Freeway

There is presented again the matter of acquisition of property on Route 24 Freeway, Section 11, Federal Aid Project U-204-(10), Ridgedale Avenue Florham Park to River Road. Condemnation proceedings were previously authorized at which time the owner's demand of $625,000. was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R83	Tatiana Zahodiakin, widow, individually and as Administratrix of the Estate of Victor F. Zahodiakin, deceased, as guardian of Sergei Zahodiakin, Victor F. Zahodiakin, Jr., and Helen Zahodiakin, minors, and Nadejda V. Gannon and Peter Gannon, her husband.	Consideration $550,000. including deposit withdrawn from court $516,000.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $516,000. This is a complicated taking which severs the property into two tracts. The settlement figure is within reasonable range of the Fair Market Value and our trial attorney, Mr. Cerreto, was of the opinion that an award and/or judgement could not be acheived under this settlement. The agreement would appear in the public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $34,000. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

The improvements have been demolished by the contractor in the performance of his duties. (December 31, 1969)

There is presented again the matter of condemnation on Route 24 Freeway, Section 11, Federal-aid Project U-204-(10), Ridgedale Avenue, Florham Park to River Road, in the name of Utility Laundry, Inc. Condemnation proceedings were previously authorized for Parcel ER87 on June 20, 1968. A complaint was filed and a court deposit was made on July 17, 1968 in the sum of $250.

Subsequently, the parcel was revised by the engineers and is now designated as Parcel E2R87. The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $250, which was offered to and refused by the owner who demanded $1,000, which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel E2R87 subject to any public utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel E2R87 in place and instead of those previously filed. (December 31, 1969)

Approval is recommended in making Award of Contract to Frapaul Construction Co., Inc. at their bid, the lowest of the two bids received on December 18, 1969 in the amount of $134,286.00 for Route U.S. 1 and 9 (1953), Section 5B and 6D, East Extension Median Divider, General Pulaski Skyway, in the City of Jersey City, Hudson County, Federal Project Number U-118(15).

(Certificate of Award attached) (January 14, 1970)

Route 95, Section 1A
Route 95, Section 1E
Route 95, Section 1G

3 Construction of the three projects was specified to be completed on June 30, 1961 (Route 95, Section 1A); June 30, 1962 (Route 95, Section 1E); and October 1, 1962 (Route 95, Section 1G). Because of adverse weather conditions, right-of-way delays, additional work, late delivery of specialized construction equipment, etc., the completion of the respective projects was delayed for periods of time varying from two months to one year. Said overrun in time would, in accordance with the original specified completion dates, result in very substantial liquidated damages.

Pending resolution of appropriate time extensions, the payment for work completed as shown on various final estimates has been withheld for the past several years. In accordance with the As-Built quantities, the total amount of $300,084.18 is presently withheld; (95 - 1A) $24,565; (95 - 1E) $117,469.49; and (95 - 1G) $158,049.69.

The contractor has recently instituted legal action against the Department of Transportation to secure payment in full of all monies withheld. Subsequent to filing of said legal proceedings, representatives of the Attorney General, Department of Law and Public Safety; the Commissioner of the Department of Transportation; the Contractor; and Counsel have met to discuss fully pertinent matters connected therewith.

The Attorney General, Department of Law and Public Safety; the Commissioner, Department of Transportation; and the Contractor have agreed to a final payment of $190,000 as settlement in full for all work completed and claims by the Contractor of any nature whatsoever connected with or pertaining to the subject project. This agreed to final payment results in the amount of $110,084.18 being retained by the Department of Transportation, which retainage is considered a fair and equitable representation of liquidated damages for overrun in completion of the projects, and for all other outstanding claims which the Department has against the Contractor.

In compliance with the agreed upon settlement, it is herein recommended that final payment be made for each project in accordance with the As-Built quantities, deducting therefrom the total amount of $110,084.18; said amount being allotted as $55,042.09 for Route 95, Section 1E and $55,042.09 for Route 95, Section 1G. **(January 19, 1970)**

Subsequently, the appraisals were updated to the complaint date. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R17	David B. Worster & Margaret R., h/w Vincent R. Worster & Sandra J., h/w	Consideration $54,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $52,300. The variance not being substantial, the agreement would appear to be in the public interest. Approval is recommended.

There has been no court deposit.

It is also recommended that condemnation proceedings previously authorized be discontinued.

It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or by sealed bids.

(January 20, 1970)

Right of Way - Route 17

72 There is presented again the matter of acquisition of property on Route 17, (1953), Section 4, from Ridge Road to U.S. 46, Parcels R89A, 89B, & 89C, Estate of Clifford Hildebrandt. Condemnation proceedings were authorized on these parcels on October 9, 1967 because the agent refused the State's offer. Subsequently, the engineers revised the parcels to 2R89A, R89B, & R89C.

These parcels were appraised and the Reviewer's registered Fair Market Value Determination is $40,700.

The agent refused the suggested settlement in the sum of $40,700. and demanded $47,500. which was considered excessive. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 2R89A, R89B, & R89C subject to any public utilities existing on the premises.

A complaint was filed on January 30, 1968 and a deposit was made with the court on January 30, 1968 in the amount of $37,500.

This parcel has been appraised and the Reviewer's re-gistered Fair Market Value determination is $800. The State made entry in 1964 and interest and legal costs being considered the variance is not substantial. The agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (January 221, 1970)

Right of Way - Route 37 Freeway

The State's Fair Market Value of $2,600 for Parcels 4A and R4B was deposited with the court on July 30, 1968.

Subsequently, the engineers revised the taking. The parcel designations are now Parcels 4A and 2R4B. Continued negotiations have resulted in an agreement as follows:

Parcels 4A and 2R4B plus damaged remnant to be acquired	Eugene Gruia and Mary Gruia, h/w	Consideration	$4,200
			100
		Total Consideration	4,300

Right of Way - Route 46

76 There is presented again the matter of acquisition of property on Route 46, Section 2, Manuka Chunk to Route 69. Condemnation proceedings were previously authorized on May 10, 1966 at which time the owners were demanding $10,000.

Subsequently, an appraisal updating to the date of complaint resulted in the State's Fair Market Value being re-registered in the amount of $2,250., which was offered to and refused by the owners, who continued to demand $10,000.

By commission action dated May 14, 1969 authority was granted to appeal an award of $4,870 which was the result of the hearing in this matter.

Prior to the jury trial continued negotiations resulted in the execution of an agreement as follows:

Parcel R8	John H. Billger and Anna E. Billger, h/w	Consideration	$4,200

The parcel has been appraised and the Reviewer's re-registered Fair Market Value determination is $2,250. This is a partial taking from an improved property and damages are a point of contention, and it is the opinion of our Special Counsel that a judgment based on past experience could not be rendered less than this settlement. The variance not being substantial, the agreement would appear to be in the public interest and approval is recommended.

It is recommended that the condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking.

Parcel E114	Albert A. Bello and Elda Bello, his wife	Consideration $1,000

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $650. The variance not being substantial, the agreement would appear in the Public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. There has been no deposit made into court. (January 22, 1970)

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 203	Battle Green & Alma L. h/w	Consideration $4,200. Including deposit withdrawn from the court of $2,450.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $3,000. This is a partial taking from an improved property and if this case proceeded to a hearing the matter of damages would be a major point of contention and our Legal Division is of the opinion that an award and/or judgement could not be achieved under this settlement based on past experiences of court cases such as this. Since the variance is not substantial the agreement appears to be in the public interest. Approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $1,750. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

Authority is also requested to dispose of the garage to the road contractor by publice auction or by sealed bids. (January 22, 1970)

		Including the deposit of	$18,700.00
		previously withdrawn by the owner.	

The parcel has been appraised and the reviewer's re-registered fair market value determination is $24,650. Approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

There is presented the matter of the Judgment in the condemnation of property located on Route 36, Section 2, Parcel E150, in the Borough of Atlantic Highland, Monmouth County, owned by Carl Casriel; et al.

The jury returned a verdict in the amount of $5,000. Trial attorney recommended an appeal. Claims - Cancellation

9 The Department of Transportation is carrying a claim against the Phoenix Trucking Corporation for damage sustained by the Route 3, Eastbound Underpass, East Rutherford, New Jersey as the result of an accident occurring on January 31, 1968, involving a vehicle owned by the Phoenix Trucking Company, being operated by Richard Zurich.

On the date in question, the vehicle involved was transporting a boiler, the height of which exceeded the road clearance at said bridge and the vehicle and boiler became wedged under the overhead bridge as it attempted to pass. As the result of the collision with the bridge, two bridge beams were bent.

The insurance carrier for the Trucking Company engaged the Storch Engineering Company to inspect the damaged bridge and furnish them with an estimate as to the cost of repairs. The figures prepared by the Storch Engineering Company was $54,000. which were approximately $7500.00 less than the Department's estimated figure of $61,500. Bids were received on April 17, 1969 and the low bid of $95,996.25 was submitted by Mohawk Constructors, Inc. who were awarded the contract. Two items appearing in the contract totaling $3379.16 were not connected with the damage sustained arising out of the accident and were therefore not to be made part of the claim against the Phoenix Trucking Company.

Negotiations between the Claims Bureau and the Aetna Insurance Company has resulted in an offer of settlement in the amount of $86,399.97. The insurance company offered this sum asking that the Department take into consideration that their extensive survey was considerably lower than the bid figure submitted and also requested that consideration be given for betterment derived from said repairs. The offer of settlement was discussed with officials of the Bridge Division, as well as, counsel to the Department of Transportation and it was agreed that in view of the circumstances involved the insurance company's offer appeared to be fair and reasonable. It should be pointed out that the bid was not awarded for nearly a year and four months after the accident occurred and that the same bridge was involved in a similiar accident with an overheight vehicle on July 8, 1968. We were assured that the damage sustained in the second accident did not enlarge or aggravate the damage attributed to the first accident.

The Claims Bureau again contacted the Aetna Insurance Company and requested that they round out their offer to $87,000.00 which they agreed to do. After deducting the two items not chargeable to this accident from the bid of $95,996.25 their remains a balance of $92,617.09 chargeable to this accident.

Giving due consideration to all the circumstances involved, as well as, the saving of time and money if we were put to our proof in a court action, it is our recommendation that the offer of $87,000.00 receive faverable consideration and be approved and that the balance of this claim in the amount of $5,617.09 be cancelled in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of William J. McCormack, Deputy Attorney General. (January 23, 1970)

81 **Right of Way - Route 4**

There is presented again the matter of acquisition of property on Route 4, Section 1, Control Section 0205-402, Route 20 to Paramus Road. Condemnation proceedings were previously authorized as the owner's demand was considered excessive. A commission hearing was held and an award was rendered in the amount of $31,400. which was appealed by the State.

At the trial on the appeal, the Trial Attorney agreed before the court to a Legal settlement in the amount of $12,000 and submitted an action to the Commissioner for approval of his action and requiring the Right of Way Division to secure agreements from the owner.

In accordance with this action, which was approved by the Commissioner on December 12, 1969, the Right of Way Division secured agreements as follows:

Parcel 16	Fairlawn Professional Center, Inc.	Consideration $12,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $8,900. This is a partial taking from a professional center in which damages were a major point of contention and the Legal Division is of the opinion that if the State were to prosecute the appeal a judgement could not be achieved at less than the settlement. The variance is not substantial and the agreement appears in the public interest, therefore, approval is recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (January 26, 1970)

Right of Way - Route U.S. 9

82 There is again presented the matter of acquisition of property on Route U.S. 9 (1953), Section 4, From Ernston Road To Route 18, Rose Nash, widow. An agreement was previously approved by the Commissioner in the sum of $450 on August 13, 1969.

Prior to the date set for closing, our engineers advised that a survey had disclosed that site improvements located within the slope area were not previously shown on the General Property Parcel Map as being within the area of taking and were not valued as part of the taking. Corrected maps were furnished by the engineers and the site improvements were now included. The parcel was re-appraised, and the reviewer's re-registered fair market value determination is now $550.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel E43 Rose Nash, widow Consideration $550.

It is recommended that this agreement be approved and the commission action of August 13, 1969 be rescinded and the agreements in the sum of $450 be considered null and void. (January 29, 1970)

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $2,650. Approval is recommended.

There has been no court deposit.

Right of Way - Route 206

84 There is presented again the negotiated matter of acquisition of property on Route U.S. 206 (1953), Section 9, Federal-aid Project U-100-(9), From Mile Hollow Creek To Crosswicks Creek. An agreement for Parcel 8 was previously approved by the Assistant Commissioner on April 25, 1969 in the sum of $21,250 including a downpayment of $5,000. Under this agreement, the owners were to retain and remove the dwelling and garage. Following agreement approval, the owners received the $5,000 downpayment and removed the garage from their property.

Subsequently, the owners could not obtain a variance from the township to relocate their dwelling due to the substandard size lot. Negotiations were reopened at the request of the owners (who are in their 80's) and resulted in the execution of an agreement as follows:

Parcel 8	Joseph A. Peoples and May Peoples, h/w	Consideration	$21,850
Plus damaged Remnant to be Acquired			250
		Total Consideration	$22,100
	Less allowance to State for owners' retention and removal of garage		100
		Net cash consideration including downpayment of $5,000 previously paid to the owners.	$22,000

Parcel 8 has been appraised and the Reviewer's registered Fair Market Value determination is $21,150, the remnant value is $250, and the retention estimate for the garage is $100. The variance not being substantial, the agreement would appear to be in the public interest and approval is recommended.

It is requested that the previous Commission action of April 25, 1969 be rescinded and that the agreement it approved be considered null and void.

Further authority is requested to dispose of the dwelling to the road contractor by public auction or by sealed bids. (January 29, 1970)

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels L22D	Mary E. Durham, Widow	Consideration	$12,650
L22E			5,400
		Total Consideration	$18,050

The parcels have been appraised and the Reviewer's registered Fair Market Value Determination for Parcel L22D is $12,650 and for Parcel L22E is $5,400; Total $18,050, approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. There has been no deposit made into court.(January 29, 1970)

86 Right of Way - Route 280

There is presented again the matter of acquisition of property on Route 280, Section 7, Federal Aid Project I-280-6-(6), Roseville Avenue to Passaic River. Condemnation proceedings were previously authorized as the owner's demand was $45,000. which was considered excessive. Later a commission hearing was held and an award was rendered in the amount of $36,000. which was appealed by the State.

Prior to the trial on appeal the Legal Division effected a settlement with the owner's attorney in which the Right of Way Division concurred and an agreement was executed as follows:

Parcel 115	Clementine Hopp, widow	Consideration $35,226.13
	including $30,000. previously withdrawn from Court	

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $30,000. The variance is not substantial considering the fact that the case is over two years old and Legal costs can be considered and also it is a reduction of the award. The agreement would appear to be in the best public interest. Approval is recommended.

Authority is requested to make payment of $5,226.13 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the Court.

It is also recommended that condemnation proceedings previously authorized be discontinued.

The improvements on this property were demolished on April 28, 1969 by the contractor in the performand of his contract. (January 29, 1970)

Right of Way - Route 440F

110 There is presented again the matter of condemnation of property on Route 440F, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized for Parcel U215C, Frank Gentempo and Helen Palmieri, T/A Elizabeth Disposal Service on December 14, 1967, at which time the owners would not state a demand.

Subsequently, the parcel was revised by the engineers. The parcel designation is now UR215C.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel UR215C, Frank Gentempo and Helen Palmieri, T/A Elizabeth Disposal Service, in fee simple subject to any public utilities existing in the premises. The State's re-registered Fair Market Value of $37,050., was offered to and refused by the owner whose demand of $500,000., for the total taking area of Parcels R215A, R215B and UR215C which is considered excessive.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel UR215C in the place and instead of those previously filed.

Inasmuch as the sum of $14,800., was previously deposited in the Superior Court for Parcel U215C, authority is now requested to deposit the additional sum of $22,250., making the total on deposit $37,050.

Said Parcel UR215C being required to relocate the facilities of the Lehigh Valley Railroad, further authority is requested to convey said parcel to the Lehigh Valley Railroad at such time as a utility order has been consummated which provided for said conveyance. (January 29, 1970)

Condemnation proceedings were previously authorized after which a settlement figure of $28,000 was agreed upon. The owner, who is an attorney, incorporated by letter with the State's form of contract certain provisions which were not agreeable to the Right-of-Way Division. Apparently the letter incorporating these provisions was not submitted to the Commissioner with the agreement.

In view of the fact that there has been no legal meeting of the minds, it is recommended that the Commission Action of July 9, 1969, approving the settlement, be rescinded. Authority is requested to proceed with the condemnation action. **(February 6, 1970)**

The State was represented by Fee Attorney Harold Lasser.

It is recommended that the consent award in the amount of $55,000.00 to include all accrued interest be approved and paid.

Approval of the settlement is recommended as fair and reasonable; not substantially in excess of the registered Fair Market Value and if the matter had proceeded to a Commission Hearing their award would most likely equal if not exceed the amount of the settlement. Approval of the Commissioners' award is therefore recommended as in the public interest.

Right of Way - Route 440F

There is presented here the matter of the appeal by the State from the award of the Commissioners in the amount of $7,500.00. A judgment was entered against the State in the condemnation of property on Route 440F, Section 2, Parcels 6A & 6B, on the Jersey City-Boyonne Line, owned by Dicris, Inc., et als.

At the trial before a Court with a jury, the State was prepared to testify to $2,500.00 for the partial taking (two Triangular wedges) of an improved parcel. Fair Market Value was registered in the amount of $2,500.00. There was a deposit paid into Court in the amount of $2,500.00 on February 29, 1968 and an additional deposit of $2,500.00 on September 17, 1968. The Complaint was filed on February 25, 1968. The defendants were prepared to testify to $7,500.00 consisting mainly of damages to a thriving gasoline business being reasons of a severe limitation of access to the states taking, although inconvenience of access is compensible from past experiences the jury would be inclined to make some allowances for the defendants loss of business. At the instance of the judge and after consulting with the Legal Division a consent judgment was entered against the State in the sum of $7,500.00.

In view of the possible high exposure by the state had this matter proceeded to a jury verdict, it is recommended that the consent judgment in the sum of $7,500.00 be accepted and that payment in the sum of $2,500.00 being the amount over and above the deposits paid into Court be paid together with lawful interest as computed from the dates of the deposits and as in the public interest.

This is a corrected Department Action Slip, correcting an error in Department Action Slip dated June 5, 1969 and which latter is herewith rescinded.**(February 6, 1970)**

92 There is presented again the matter of acquisition of an easement on Route 280 (1953), Section 3, Project I-280-6-(8), From Laurel Avenue to Prospect Avenue, Parcel E55, Winnie M. Woodhull, widow. On September 12, 1966, the Commissioner approved a Right of Way acquisition settlement in the amount of $1,000.

Subsequent to the closing of title, the owner complained that construction features installed on the property were inadequate. Also, that by reason of the nature of said construction additional property damage not included in the above settlement had resulted.

Investigation by the Construction Division and the Regional Engineer verified the claim and by means of his letter of November 17, 1969, Mr. Jack Freidenrich requested the Right of Way Division to compensate the owner for certain construction work which in the engineers' opinion should be reconstructed. This work could not be accomplished by the road contractor as he was off the job.

A release of further claims for damages has now been executed by the owner in the amount of $3,600.

The Right of Way appraisals indicate a sum of $800 for the additional damages and the Engineers submitted an estimate of

$1,785 for the construction features, formulating a total of $2,585. The Right of Way appraisal, dated September 29, 1967, would be substantially higher as of this date as would the engineers' estimate which is also subject to the question of actual bid contract price verification. For all these reasons, it is felt that the release from further damage claims is in the public interest. Authority is requested to accept said instrument and for the Title Bureau to make payment upon approval of title. **(February 11, 1970)**

112 ⌜ There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $59,375.00 in the condemnation of ⌜ property on Route 80, Section 4E, Parcel R82, owned by Fullets Milk Bar, et als.

At the trial before a Court with a jury the owners were prepared to offer testimony in the amount of $93,339.00. Fair Market Value was established at $34,000.00. The Complaint was filed December 23, 1965 and deposits of $29,000.00 and $2,000.00 were made on January 19, 1966 and April 30, 1968, respectively.

After consultation by the trial attorney with the Legal Division and the Right of Way Director the matter was settled by the entry of a consent judgment in the sum of $49,000.00 plus interest at 6% from the dates of the respective deposits.

The State was represented by Fee Attorney John Hila.

It is recommended that the settlement in the sum of $49,000.00 plus interest at 6% per annum on the unpaid balances from the respective dates of taking, be accepted based upon the nature of the taking; that the actual damages exceed those allocated by the State in that the owner has been entirely out of business since the construction; that the proposed settlement greatly reduces an award already rendered; that his experience as a trial attorney indicates that a jury trial in takings of this nature would at least equal, if not exceed, the amount of the award; and, the case being over two (2) years old (complaint filed December 23, 1965), court and trial costs would be a factor. In view of these legal considerations it is the opinion of the Legal section that the settlement be approved as in the public interest.

This is a corrected Department Action Slip, correcting an error in Department Action Slip dated December 4, 1969, and which latter is herewith rescinded. **(February 13, 1970)**

Claims - Settlement

4

The Department of Transportation is carrying a claim against Gerald S. Kocsis and Joan B. Kocsis in the amount of $252.72 arising out of an accident occurring on May 8, 1969 involving a vehicle owned by the State of New Jersey, being operated by James Glennon, and a vehicle owned by Joan Kocsis, being operated by Gerald S. Kocsis. As the result of said accident the Department's vehicle was damaged and had to be repaired at a cost of $252.72.

The accident occurred at the intersection of Princeton Avenue and Spruce Street, Trenton, New Jersey and both drivers claim they entered the intersection on the green light. Both drivers were issued summons for disregarding traffic signal and at a hearing before Judge Leventhal, both drivers were found "not guilty". The insurance company representing the other vehicle denied liability on the part of their assured and refused to make voluntary payment. Suit was therefore filed by the Claims Bureau against Gerald and Joan Kocsis in the Mercer County District Court. Subsequent to the filing of our complaint, the insurance carrier for the other party agreed to make a payment of 50% towards our claim.

Giving due consideration to the circumstances under which the accident occurred, we feel the insurance company's offer is fair and reasonable. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto and the approval of Deputy Attorney General Joseph Lipkin that their offer of $126.36 in full settlement of this claim receive favorable consideration and be approved. (February 25, 1970)

Claims - Cancellation

5 In accordance with the recommendation made by the Claims Bureau and Joseph Lipkin, Deputy Attorney General, and George Bridegum, Director, Division of Accounting for the New Jersey Department of Transportation, in connection with claims being carried against outside parties arising out of motor vehicle accidents, more fully set forth in the Schedule, attached hereto, it is hereby recommended that the claims in question be cancelled for the reasons set forth in the memorandum prepared by the Claims Bureau dated February 17, 1970.

The forty-nine (49) claims recommended for cancellation and appearing on the attached Schedule total $8,922.70. (February 25, 1970)

Right of Way - Route 287

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 287, Section 7, Parcel 163B, in the Township of Bernards, owned by Mary Elizabeth Burdick, et al.

At the hearing before the Commissioners which was held on February 3, 1970, an award of $1,025.00 was granted. Fair Market Value was registered in the amount of $1,025.00. There was no testimony on behalf of the owners. The State offered testimony in the amount of $1,025.00 for the partial taking plus slope easement of an improved parcel. There was no deposit paid into Court.

The State was represented by Fee Attorney Jonathan Heilbrunn.

It is recommended that the award in the amount of $1,025.00 be approved and payment in the sum of $1,025.00 be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest.

Condemnation proceedings were previously authorized on September 15, 1967, at which time the State's Suggested Settlement of $1,500 was offered to and refused by the owners, whose demand of $25,000 was considered excessive.

Subsequently, the appraisal was updated to reflect damages to remainder as a result of construction which were not clearly evident from the plans. Continued negotiations have resulted in the execution of an agreement based on the conveyance by the State of Parcel X108A2, as follows:

Parcel 109	Edward J. Hess, Jr., single, and Arnold M. Hess and Lucretia J., h/w	Consideration $6,000

Parcel 20	Landis Sewerage Authority, a body corporate and politic of the State of New Jersey	Consideration $1300.00

The parcel has been appraised and the Reviewer's registered fair market value determination is $1300. Approval is recommended.

Right of Way - Route 78

61 There is presented again the matter of acquisition of property on Route 78, Section 5H, Federal Aid Project I-78-5-(7), Elizabeth Avenue to Port Street. Condemnation proceedings were previously authorized as the owners' demand was $130,000., which was considered excessive.

Subsequently, an agreement was secured and approved by the Commissioner on November 25, 1968 for Parcels 2R4 and R5 in the amount of $120,000. Prior to the execution and delivery of the deed, a stake-out was made so that the owner could define the Right of Way line and reconstruct the building wall and clear the Right of Way as per the agreement terms, it was found by the engineers that the buildings were plotted incorrectly on the map. This necessitated a parcel revision and the parcels are now designated as Parcels 3R4 and 2R5. Condemnation was therefore reinstituted.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels 3R4, 2R5 Miller Warehouse Co. & Al Miller
(Same Beneficial Ownership)
Seller to demolish that portion of building within Parcel 3R4 and 2R5, and also to clear the Right of Way on behalf of the State entirely at his expense.

Net Consideration..................$120,000.
Including a down payment of $30,000. previously paid.

The parcels have been appraised and the Reviewer's Value for the part taken and damages to the remainder is $98,500. This agreement is considered equitable and in the public interest in that the State would otherwise be obligated to demolish the structure within the Right of Way line and construct a temporary wall for the building on 3R4 which several architects' studies indicate would cost upwards to $20,000. Whereas the market resale and salvage value of the building on Parcel 2R5, which would otherwise be conveyed to the State in its entirety, is indicated by a retention estimate to be only $500. If the $20,000. cost of clearing the Right of Way which is to be absorbed by the owner is added to the Fair Market Value, the total would be $118,500. Approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued. There has been no court deposit on this case. (March 11, 1970)

Right of Way - Route 80

Parcel 7	Boyd E. Wilson and Lilian B. Wilson, h/w	Consideration $22,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $20,000. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

86 Right of Way - Route 295

There is presented again the matter of acquisition of property on Route 295, Section 7, Federal-aid Project I-295-2-(45), From Crosswicks Creek to Route 33, Parcel 24, Victor Tomeczek & Rozalia Tomeczek, his wife. Condemnation proceedings were previously authorized as the owners' demand of $26,000 plus retention of shrubbery was considered excessive.

Upon the filing of a complaint, the appraisals were updated to the complaint date which is the legal date of valuation. The new fair market value of $24,300 was offered to the owners' attorney and refused. It, therefore, appears as if the condemnation must go forward.

The owners have expressed hardship circumstances and although the State does not require possession of the premises for construction purposes at this time, the owners apparently acquired another property. In view of the hardship circumstances, authority is requested to file a Declaration of Taking and to deposit with the court the fair market value estimate of $24,300. This will enable the funds to be available to the owner for withdrawal from the court pending fixing of compensation by the courts. (March 9, 1970)

The parcel has been appraised and the Reviewer's registered fair market value determination is $250. The variance over the Condemnation Commissioners award of $500 is not substantial and it is extremely unlikely that the State could expect to have a verdict less than the agreed upon sum. Right of Way - Route 17

88 There is presented here the matter of the Commissioners' award in the condemnation of property on Route 17, Section 4, Parcel R117, in the Borough of Woodridge, owned by Clarella Realty Co., et al.

At the hearing before the Commissioners, an award of $160,000.00 was granted. Fair Market Value was registered in the amount of $115,900.00. The owner's witness testified to $186,900.00 ($151,200.00 for buildings and land, and $35,700.00 for equipment). The State's witness testified to $115,900.00 for the taking and damages to an improved parcel, but did not evaluate the machinery and equipment as part of the taking. There was a deposit paid into Court in the amount of $102,000.00 on June 21, 1967.

The State was represented by Fee Attorney Michael Cerreto.

The trial attorney did not file an appeal and recommended acceptance of the award. He was of the opinion and stated that certain fixture items located in the plant should have been evaluated as realty based on the Gallant decision and which he reported were not considered by the State's appraiser.

There is no clear line of distinction as to what fixtures affixed to a plant are to be considered as realty or personalty. This is a gray area and a determination depends not only upon the facts and circumstances in each case but also upon the one who is charged with making such a decision.

The fixture items referred to by the trial attorney were subsequently submitted to the appraisers who furnished supplemental valuation statements that these items did not enhance their estimate of the value of the real-estate.

However, since the trial attorney did not take an appeal and time for appeal has expired the matter is submitted with a recommendation that payment of the award be authorized.

This is a supplemental Department Action Slip to one submitted heretofore, viz.: July 15, 1969. (March 12, 1970)

Right of Way - Route 35

There is presented herewith the matter of the appeal by the property owner from the award of commissioners in the condemnation of property on Route 35, Section 8, Parcel 167B, owned by Ira Crouse.

At the trial which was held together with that of another parcel involving the same owner, it was stipulated that the commission award in the amount of $250 be approved and that this case not be submitted to the jury. On October 23, 1967, the amount of $250 was deposited with the court.

It is therefore recommended that the commissioners' award in the amount of $250 be approved and the appeal be dismissed, and that the previous commission action dated May 26, 1969 and approved by the Commissioner on June 2, 1969 be rescinded.

Further, the owner has moved to withdraw the deposit of $250. Since the amount of the award and the amount of the deposit are the same, it is recommended that the withdrawal by the owner be approved. (March 12, 1970)

92 There is presented here the matter of the Commissioners' award in the condemnation of property on Route 35, Section 8, Parcel 177B, C, & D in the Township of Middletown, owned by Ira Crouse, et als.

There was no testimony on behalf of the owners. The State's expert testified to $8,000.00 for the partial taking of an improved parcel. There was a deposit paid into Court in the amount of $7,700.00 on October 23, 1967.

The State was represented by Fee Attorney Richard Bonnello.

The State was represented by Fee Attorney Herbert Strulowitz.

After consultation with the Legal Division the matter was settled for the sum of $1200.00 to include all acrued interest. In view of the owner's contention that the State has damaged the septic system; that a non-septic system could not be re-located on the remaining property because of its proximity to an existing well; that the State is not in a position to deny or affirm this damage; that the estimate to repair this damage by an expert for the State amounts to $1,000.00; that the defendant is an elderly woman whose testimony before a jury will most likely influence a verdict in her favor which will at least equal or exceed the amount of the settlement, it is recommended that this settlement be approved as fair and reasonable and not excessive under the circumstances. There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $59,375.00. A judgment was entered against the State in the condemnation of property on Route 80, Section 4E, Parcel R82, owned by Marvin Kosoff and Leon A. Consalas, formerly Fuller's Milk Bar, et als.

At the trial before the Court and a jury the owners were prepared to offer testimony in the amount of $93,339.00 and the State was prepared to present testimony in the amount of $34,000.00. The matter was settled in the amount of $49,000.00 as authorized by the Right of Way Division.

The State was represented by Fee Attorney John A. Hila.

It is recommended that the settlement in the amount of $49,000.00 be accepted as being in the public interest because it reduces the award and is also based on the likelihood that the State could not have done better before a jury. Right of Way - Route 440 Freeway

102 There is presented here the matter of the Commissioners' award in the condemnation of propertyon Rt. 440Fwy, Sec. 1, Parcel 78 in the City of Perth Amboy, owned by Ahavas Achim Cemetery Association, et al.

Prior to the Commission Hearing and after consultation with the Legal Division a consent award in the amount of $6,000.00 was entered against the State. Fair Market Value was re-registered in the amount of %5,500.00.

Approval of the consent award in the amount of $6,000.00 is recommended since it is slightly in excess of the State's Fair Market Value; had the matter proceeded to a Commission Hearing the award would have equaled or exceeded the amount of the settlement. Since the amount is fair and reasonable approval of the award is therefore recommended as in the public interest.

The State was represented by Fee Attorney Sylvan Heilbrunn.

Claims

7 The Department of Transportation has two claims arising out of an accident occurring on June 5, 1967 at the intersection of Bridgeboro and Moorestown Road, Route 130, involving a vehicle owned by Bozarth Fuels, Inc., operated by Sidney W. Lockwood. As the result of said accident, concrete barrier curb and traffic signal equipment was damaged.

The Electrical Division of the Department made necessary repairs to the damaged traffic signal equipment whose charges amounted to $485.41. This bill was prepared and forwarded to the responsible party whose insurance carrier settled the claim in full by check dated August 12, 1969. The Maintenance Division of the Department, due to the type of damage incurred were unable to complete their repairs as quickly as the Electrical Bureau. The repairs to the concrete barrier were completed at a cost of $576.80.

The insurance carrier upon being tendered a bill by the Department for the Maintenance Division damages replied that they had settled this case by their draft previously forwarded in the amount of $485.41. The claim was then referred to the Claims Bureau and a letter of explanation was forwarded to the Imperial Casualty and Indemnity Company who replied to their correspondence by letter dated October 17, 1969, a copy of which is attached, hereto, and is self-explanatory.

Giving due consideration to all the circumstances involved in this case, the insurance carrier's offer of 75% was discussed with counsel to the Department of Transportation who felt that the insurance company's position and offer was fair and reasonable and authorized the acceptance of 75% in full settlement of this claim. It is therefore our recommendation that the sum of $432.60 be accepted in full settlement of the Maintenance Division Claim #7024 and the balance of this claim in the amount of $144.20 be cancelled in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General Joseph Lipkin. (April 6, 1970)

Claims - Settlement

8 The Department of Transportation is carrying a claim against the Public Service Coordinated Transport in the amount of $50.69 arising out of an accident occurring on October 1, 1968 involving a bus owned by the Public Service Coordinated Transport, operated by Dominick Malonga, and a vehicle owned by the Department of Transportation, operated by Louis Townsend. As the result of said accident, the Department's vehicle was damaged and had to be repaired at a cost of $50.69.

Upon presenting a bill to the Public Service, they denied responsibility and refused to make a voluntary payment on the grounds that the State operator contributed to the accident. Subsequent negotiations by the Claims Bureau resulted in the Bus Company offering to meet us half way and pay 50% of the State's claim.

In view of the circumstances and the small amount involved, we feel the best interest of the State would be served if we accepted the offer and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney Joseph Lipkin that the sum of $25.35 be accepted in full settlement of this claim. Consultant Services
Parsons, Brinckerhoff, Quade and Douglas
Pennsylvania Station Railroad Complex

16 Our agreement with Parsons, Brinckerhoff, Quade & Douglas dated December 5, 1967, for services in connection with the Pennsylvania Station Railroad Complex provided for salary reimbursement to a ceiling of $74,100. In addition reimbursement for printing and mileage was provided (which utilized the contingency portion).

During the development of the project, the Consultant was asked to perform services that were not included in the original scope. A cost analysis between a three story station versus a one story station building was added; an evaluation for different bridge locations was requested; a modification in the form of stairs and protection was added. In addition, due to the tight schedule, the Consultant was compelled to redesign one abutment. The aforementioned items raised the aforementioned salary ceiling by $26,400 plus expenses in the amount of $1,500 for which reimbursement to the Consultant are recommended.

A review of the finances on this project indicates that there is $14,449.53 still in the account, excluding direct salary payments. To provide reimbursement, therefore, for the additional $26,400 and $1,500, an amount of $13,450.47 should be set up and the account closed as soon as final payment has been made to the Consultant. The parcel has been re-appraised and the Reviewer's Re-registered Fair Market Value Determination is now $33,750. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels R1A, R1B, and R4C, Ocean-Val Inc., in fee simple, subject to any public utilities existing in the premises. The State's re-registered Fair Market Value of $41,400.00 was offered to and refused by the owners, who did not state a demand.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcels R1A, R1B, and R4C in the place and instead of those previously filed.

Inasmuch as the sum of $44,200.00 was previously deposited in the Superior Court for Parcels 1A, 1B, and 4C, authority is now requested to withdraw the sum of $2,800.00, making the total on deposit $41,400.00 (April 6, 1970)

Right of Way - Route 37 Freeway

90 There are presented report and appraisal with map and description on Route 37 Freeway, Section 4, From Monmouth Road (County Route 537) to Garden State Thruway, Parcel 33D, J. Patrick McMorrow, Single.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owner is unable to convey clear title.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $[illegible]00.00. (April 6, 1970)

Right of Way - Route 80

91 There is presented again the matter of condemnation of property on Route 80, Section 1A, Federal-aid Project F-93-(9), From Waterloo Road to Route 46 at Netcong. Condemnation proceedings were previously authorized for Parcel 15, Westby Corp. (A Florida Corp.) on October 16, 1967, at which time the owners were demanding $27,000 which was considered excessive.

The Right of Way Division was subsequently advised that a Commission Hearing had been held in December, 1968, without the knowledge of Right of Way. An award was rendered in the amount of $39,075 which was appealed by the State.

Subsequently, the map was revised by the Engineers. The parcel designation is now R15.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R15, Westby Corp. (A Florida Corp.), in fee simple, subject to any public utilities existing in the premises. The State's registered Fair Market Value of $23,000 was offered to and refused by the owner whose demand of $39,075 is considered excessive.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R15 in the place and instead of those previously filed.

Inasmuch as the sum of $23,000 was previously deposited in the Superior Court for Parcel 15, an additional deposit is not required. (April 6, 1970)

Right of Way - Route 440F

92 There is presented report and appraisal with map and description on Route 440F, Section 2, Control Section 0918401, From 63rd, Street to Bayonne Bridge, Parcels 11A and 11B, Board of Education, City of Bayonne.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels, in fee simple, subject to any public utilities existing on the premises. The owner refused a suggested settlement of $83,900. and demanded $320,000. which is considered excessive.

The parcel was appraised and the Reviewer's fair market value determination is $83,900.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $83,900.

Authority is requested to enter upon the owner's remaining lands for the purpose of filling the area from the Freeway to the existing easterly shoreline of Newark Bay. (April 6, 1970)

Right of Way - Route 440 Freeway

93 There is presented again the matter of acquisition of property on Route 440 Freeway, Section 3, Federal-aid Project U-209-(3), From Route 35 To Outerbridge Crossing Bridge Plaza, Parcels 84A and E84C, owned by the City of Perth Amboy. Condemnation proceedings were authorized for Parcels 84A and E84C on June 23, 1969. Then, subsequently, an agreement covering the conveyance of the above captioned parcels as well as Parcel 84B, in the sum of $115,850 was approved by the Commissioner on January 28, 1970, which in turn rescinded condemnation proceedings for all three parcels which had been authorized on June 23, 1969. A deposit for these three parcels in the sum of $111,850 had been made in the Superior Court.

Our Title Bureau now advises that Parcels 84A and E84C are used for park purposes and cannot be conveyed to the State of New Jersey by agreement within the purview of N. J. S. A. 40:184-27. The City's attorney has informed the State in writing that the City will not contest the condemnation proceedings as to value.

Authority is, therefore, requested to institute condemnation proceedings for Parcels 84A and E84C in fee simple subject to any public utilities existing in the premises. Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is therefore requested to file a Declaration of Taking and to deposit with the Court the previously registered fair market value of Parcels 84A and E84C in the sum of $111,700.

The State withdrew the Court deposit of $111,700, previously made, in order to make payment under the terms of the agreement which now cannot be consummated. Accordingly, authority is requested to rescind the Commission Action dated January 28, 1970 and the agreements previously executed by the City, in the sum of $115,850.

Further authority is recommended to dispose of the site improvements to the road contractor by public auction or by sealed bids.
(April 7, 1970)

Right of Way - Route 440 Freeway

94 There is presented the matter of relocation payment for the self-relocation of personal property on Route 440 Freeway, Section 3, Federal Aid Project U-209-(3), From Route 35 to Outerbridge Crossing Bridge Plaza, Parcel R87.

The owner has made application for a self-move of his personal property which, in our opinion, is the only practical solution to a complex business relocation. The owner has submitted the required two estimates, and we have secured a third supporting estimate.

It is recommended that the self-move agreement form executed by the owner be approved and that authority be granted to make payment to the owner in an amount not to exceed $5.600.

There is presented here the matter of the Judgment entered against the State in the condemnation of property on Route 17, Section 4, Parcel 93, in the Borough of Carlstadt, Bergen County, owned by Nictom, Inc., (there has been no amendment to indicate their ownership) a corporation of New Jersey; et al.

At the commission hearing, the commissioners' award was in the amount of $42,000. The State appealed.

At the jury trial the property owner testified in the sum of $73,900 and the State offered testimony in the sum of $36,300, the fair market value. On June 21, 1967 the sum of $35,000, the then fair market value, was deposited into court and withdrawn.

The jury returned a verdict in the sum of $47,400.

It is herewith recommended that the Commissioner approve the Judgment in the sum of $47,400 with a credit of $35,000, the deposit into court, together with interest and costs on the sum of $12,400, that being the difference between the amount of the deposit and the amount of the verdict, as computed by the Bureau of Titles.

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 24F, Section 12, Parcel E21, in the City of Summit, owned by Sibling Corporation, et als.

At the hearing before the Commissioners which was held on March 16, 1970 an award of $500.00 was granted. Fair Market Value was registered in the amount of $500.00. There was no evaluation testimony on behalf of theowners. The State's expert offered testimony in the amount of $500.00 for the slope easement. There was no deposit paid into Court.

The State was represented by Fee Attorney David Rothberg.

It is recommended that the award in the amount of $500.00 be approved and paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable and the payment of the award is recommended as in the public interest. (April 1, 1970)

Right of Way - Route 35

108' There is presented the matter of an appeal from an award of Commissioners in the amount of $4,000.00 in the condemnation of property on Route 35, Section 8, Parcels R97A, R97B in the Township of Middletown, owned by William A. Bedford and Mary R. Bedford, et al.

Prior to the commencement of the jury trial, the matter was settled for $5,750.00 after consultation with the Right of Way Division. The Fair Market Value was re-registered in the amount of $5,500.00. There was a deposit paid into Court on October 16, 1967 in the amount of $2,700.00 and an additional deposit on March 11, 1969 in the sum of $1,100.00, for a total deposit in Court of $3,800.00

The State was represented by Fee Attorney Jonathan M. Heilbrunn.

It is recommended that the consent judgment in the amount of $5,750.0 be approved since it is slightly in excess of the registered fair market value and experience with juries in Monmouth County would indicate that that a jury verdict would equal, if not exceed, the amount of the consent judgment and for the further reason that it is in the public interest.

It is recommended that the award in the amount of $5,750.00 be approved and payment in the sum of $1950.00 being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (April 6. 1970)

Right of Way - Route 36

109' There is presented here the matter of the appeal from an award of Commissioners in the amount of $2,500.00, in the condemnation of property on Route 36, Section 2, Parcel ER109 in the Township of Middletown, owned by Telfair Byrne, et al.

Prior to the jury trial and after consultation with the Legal Division a consent award in the amount of $2,100.00 was entered against the State. Fair Market Value was registered in the amount of $550.00.

Approval of the consent award in the amount of $2,100.00 is recommended since it is slightly in excess of the State's Fair Market Value; had the matter proceeded to a Jury Trial the judgment would have equaled or exceeded the amount of the settlement. Since the Amount is fair and reasonable approval of the award is therefore recommended as in the public interest.

The State was represented by Fee Attorney Richard L. Bonello. (April 1, 1970)

Right of Way - Route 37

110 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $135,000.00. A consent judgment was entered against the State in the condemnation of property on Route 37, Section 4A, Parcel 115, in the Township of Dover, owned by Robert Snyder, et al.

After consultation with the Right of Way Division a consent judgment was entered in the amount of $128,000.00 with interest from March 10, 1970 to date of payment. Fair Market Value was registered in the amount of $106,000.00. There was a deposit paid into Court on April 2, 1968 in the sum of $94,750.00. The Complaint was filed on April 2, 1968.

The State was represented by Fee Attorney Richard L. Bonello.

It is recommended that the consent award in the amount of $128,000.00 plus interest be approved and that payment in the sum of $33,250.00, being the amount over and above the deposit in court be paid together with lawful interest as computed by the Bureau of Titles.

Approval of the settlement is recommended as fair and reasonable slightly in excess of the registered Fair Market Value, and if the matter had proceeded to the jury trial their award would most likely equal if not exceed the amount of the settlement. Approval is recommended as in the public interest also, particularly since it results in a reduction of the Commissioners' Award. (April 1, 1970)

111 Right of Way - Route 37F

There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $38,000.00. A judgment was entered against the State in the condemnation of property on Route 37F, Section 3, Parcel 20, in the Township of Millstone, owned by Louise Zalaman; et al.

Fair Market Value was re-registered in the amount of $24,000.00 on September 30, 1969. There was a deposit paid into Court on July 31, 1968 in the amount of $19,700.00.

The State was represented by Fee Attorney Lewis L. Krieger.

It is recommended that the verdict in the amount of $31,000.00 be approved and that payment in the sum of $11,300.00, being the amount over and above the deposit paid into Court, be paid together with lawful interest as computed by the Bureau of Titles. There are no grounds for appeal. (April 1, 1970)

On the date of the trial, the attorney for the property owner said he would accept the Commissioners' award and waive any interest. Mr. Mullen was contacted and a settlement was authorized in the amount of $21,000, as recommended by Deputy Attorney General Cannon.

A Consent Judgment in the amount of $21,000 for both parcels net to the owner was entered. It is recommended that it be approved and that $5,700, being the amount over and above the deposits into court, be paid. (April 1, 1970)

113 Right of Way - Route 78

The owners were represented by William E. Ozzard, Esq. On the date of trial, a settlement discussion was had with the owners' attorney at which time the owner agreed to accept in full settlement, including interest, the sum of $60,000.

Inasmuch as this has the approval of the Assistant Commissioner, Highways, upon the recommendation of Deputy Attorney General Cannon, it is recommended that the consent judgment in the amount of $60,000 be accepted and that payment in the amount of $36,300, that being the amount over and above the deposit, be paid. (April 1, 1970)

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 3D, Parcels 6B, 6H and R6M owned by W. W. Howell; et al.

At the hearing before the commissioners, the property owner testified to a value of $600. Since the State's Fair Market Value was registered in the amount of $1,850, which is in excess of the amount the property owner had testified to, there was no contention or testimony by the State. Complaint was filed on March 19, 1966 and deposit was made into court on June 29, 1966 in the amount of $600. Fair Market Value was registered in the amount of $1,850. Commissioners returned an award in the amount of $600.

It is, therefore, recommended that the award of the commissioners in the amount of $600., be approved. (April 6, 1970)

59 There is presented again a negotiated purchase agreement on Route 78, Section 5F, Federal Aid Project I-78-5-(5), from Lyons Avenue to Schuyler Avenue, Parcel 216, Wyckoff Savings and Loan Association. An agreement covering the conveyance of the above captioned parcel from Thomas L. Gilmore and Pearl Gilmore, his wife, was previously approved by the Assistant Commissioner of Highways on October 2, 1968. The consideration was $31,500. including a down payment of $4,100. which was made to Mr. and Mrs. Gilmore on October 11, 1968.

On April 3, 1969 the premises were vacated and possession taken by the State, however, the owners never delivered a Deed to the State and a final closing was never achieved. Subsequently, the mortgagee, Wyckoff Savings and Loan Association, foreclosed on the first mortgage and title is now vested with them.

Continued negotiations with the owner of record resulted in the execution of an agreement as follows:

Parcel 216	Wyckoff Savings and Loan Association	Consideration $31,500.

The parcel having been appraised and the Reviewer's registered Fair Market Value Determination being $31,500., approval is recommended.

It is recommended that authority be granted to rescind the previous commission action granting approval for the purchase agreement of Thomas L. Gilmore and Pearl Gilmore.

Authority is further requested to file suit or whatever action deemed necessary against the previous owners Thomas and Pearl Gilmore, for the recovery of the down payment of $4,100., by reason of their failure to convey the property to the State in accordance with the terms of the agreement.

The improvements were demolished on May 13, 1960 by the road contractor in the performance of his contract. (April 10, 1970)

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 19	Frank Calandriollo & Marlene, h/w	Consideration	$7,700.
	Remnant to be acquired		$ 200.
		Total Consideration	$7,900.
		Including down payment of $1,900.	

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $6,700 and the value of remnant being $200, the variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. There has been no court deposit. (April 10, 1970)

It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or sealed bids.

61

Right of Way - Route 35

There is again presented the matter of acquisition of property on Route 35 (1953), Section 5, From Route 38 To Asbury Avenue, Parcel R26A plus Remnant, Aloysius McNally and Carrie Norcross, both single. Condemnation proceedings were previously authorized on November 25, 1969, at which time the State's Registered Fair Market Value Determination of $13,500. was offered to and refused by the owner whose demand of $18,000. was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows;

Parcel R26A	Aloysius McNally and Carrie Norcross, both single	Consideration	$13,400.
Damaged Remnant to be acquired			100.
		Total Cash Consideration	$13,500.
		Including a down payment of	$ 3,375.
	Plus replacement housing bonus of to be paid on satisfaction by State that seller has purchased and occupied a decent, safe and sanitary replacement dwelling.		$ 5,000.

The parcel having been appraised, the Reviewer's Registered Fair Market Value Determination being $13,400. for Parcel R26A and $100. for the remnant, totaling $13,500., and the Bonus Additive being $5,000., the agreement would appear to be in the public interest. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on November 25, 1969 be discontinued.

Upon taking of possession, authority is requested to dispose of the two buildings to the road contractor, by public auction, or by sealed bids.

Inasmuch as a deposit has not been made with the Superior Court, no request for authority to withdraw is necessary. (April 10, 1970)

62 Right of Way - Route 35

There is again presented the matter of acquisition of property on Route 35 (1953), Section 40, From School House Road, Brielle To McLean Avenue, Point Pleasant Beach. Condemnation proceedings were previously authorized on July 17, 1967. An agreement was previously approved by the Commissioner on September 11, 1953 in the sum of $1,000. but a title search indicated that the title was unmarketable and the owners could not convey title according to the terms of our agreement.

Subsequently the appraisal was updated to the date of complaint and continued negotiations have resulted in the execution of an agreement as follows:

Parcel 103	Elizabeth Esdaile Williams, Widow, as Executrix Under Last Will and Testament of Mary Esdaile Williams Massenberg	Consideration $6,000.

The parcel having been appraised, the Reviewer's Re-registered Fair Market Value Determination being $6,000., it is recommended that the agreement be approved and that the condemnation proceedings previously authorized on July 17, 1967 be withdrawn.

Further authority is requested to withdraw the deposit of $1,000. heretofore made into the Superior Court under Declaration of Taking.

A Dwelling Lease Occupancy Agreement was approved by the Assistant Commissioner, Department of Transportation, on January 28, 1970. Subsequently, it has been determined that the owners, due to illness in the family, are unable to close title at this time. A hardship now exists, in that the owner is not only obligated to pay rental under the lease agreement, but also must make payments to the Mortgage Company since title has not closed.

There is presented again the matter of acquisition of property on Route U.S. 9 (1953), Section 4, Ernston Road To Route 18, Parcel E95, Arlin Construction Equipment Corporation (A New Jersey Corporation). Condemnation proceedings were previously authorized by the Commissioner on January 8, 1970, at which time the State's suggested settlement in the sum of $250 was offered to the owner who refused to execute an agreement.

Subsequently, an agreement was secured but before it was approved by the Commissioner the owner requested that the parcel be eliminated, inasmuch as he had filled in the slope area and brought it to the grade of the road.

Our engineers, on March 26, 1970, confirmed the fact that the owner's property had been brought to grade and the acquisition of this slope easement was not required. The engineers, therefore, eliminated the parcel from our General Property Parcel Maps.

Authority is, therefore, requested to rescind the Commission Action of January 8, 1970 authorizing condemnation. The owner has been advised that the acquisition of this parcel is no longer necessary. (April 13, 1970)

Our engineers, on March 26, 1970, confirmed the fact that the owner's property had been brought to grade and the acquisition of this slope easement was not required. The engineers, therefore, eliminated the parcel from our General Property Parcel Maps.

Authority is, therefore, requested to rescind the Commission Action of December 31, 1969 authorizing condemnation. The owner has been advised that the acquisition of this parcel is no longer necessary. (April 13, 1970)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $11,000.

Further authority is requested to dispose of the dwelling to the road contractor, by public auction, or by sealed bids. (April 13, 1970)

By commission action dated December 18, 1969 it was inadvertently reported that the amount on deposit in the Superior Court was $179,100. and the registered Fair Market Value Determination being $200,000., it was requested that an additional sum of $20,900. be deposited in order to make the total amount on deposit equal to the registered Fair Market Value. This action was authorized on December 29, 1969.

Subsequent thereto, it was determined that the actual amount on deposit with the Superior Court is $178,800. and that the correct amount to be deposited in addition thereto is $21,200. It is therefore requested that the authority to deposit the additional sum of $20,900. be rescinded and that authority be granted instead to deposit an additional sum of $21,200., which when combined with the $178,800. already on deposit will make a total deposit of $200,000., which represents the registered Fair Market Value. (April 13, 1970)

(April 13, 1970)

78 **Right of Way - Route 35**

There is presented again the matter of acquisition of property on Route 35 (1953), Section 5, From Route 38 to Asbury Avenue. An agreement in the sum of $8,800 was previously approved by the Commissioner on October 21, 1969 covering the conveyance of Parcel R20A and the damaged remnant designated as X20B to be acquired from Daphne Morris Goldman, widow.

Our Title Bureau instituted a search and they report that there are several other parties in interest who hold ownership in and to these parcels and who cannot be located.

Inasmuch as Title is involved, it is recommended that condemnation proceedings be instituted for the acquisition of Parcel R20A and X20B in fee simple, subject to any public utilities existing in the premises and that the Commission Action of October 21, 1969 and the agreement previously secured in the sum of $8,800 be rescinded.

Prior to the ultimate fixing of compensation, should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court the sum of $8,800 which represents the registered fair market value.

81 **Right of Way - Route 37 Freeway**

Condemnation proceedings were previously authorized for Parcels 40A & 40B, Mrs. Frances M. Tatter, widow on April 24, 1968, at which time the owner's demand was $175,000., which was considered excessive. A complaint has not been filed on these parcels.

Subsequently, the parcels were revised by the engineers. The parcel designations are now R40A, R40B and 40C.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels R40A, R40B & 40C, Mrs. Frances M. Tatter, widow, in fee simple subject to any public utilities existing in the premises. The State's re-registered Fair Market Value of $70,800 was offered to and refused by the owner who demanded $175,000., which is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $70,800.

It is further recommended that the Commission Action dated April 24, 1968 authorizing the institution of condemnation proceedings be rescinded.

Right of Way - Route 78

83 There is presented again the matter of acquisition of property on Route 78, Section 5H, Federal Aid Project I-78-5-(7), from Elizabeth Avenue to Port Street, Parcel R33, Sherman Interests, Inc. Condemnation proceedings were previously authorized for Parcel 33 on August 1, 1967. A complaint was filed on August 31, 1967, and a court deposit in the sum of $115,000. was made on August 31, 1967. Subsequently, the parcel was revised by the engineers to Parcel R33, to minimize damages to the front building of the property.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $128,000. Continued negotiations resulted in the owner refusing the suggested settlement of $128,000. and demanding $235,000., which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R33 in fee simple, subject to any public utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R33 in the place and instead of those previously filed. Authority is requested to deposit an additional amount of $13,000. with the Superior Court which when combined with the $115,000. already on deposit will make a total deposit of $128,000. representing the registered Fair Market Value.

Upon taking of possession authority is requested to dispose of that portion of the building lying within the limits of the right of way to the road contractor at public auction or by sealed bids. (April 13, 1970)

Subsequently, parcel 24A was revised by the engineers. The parcel designation is now R24A, 24B and 24D.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels R24A, 24B and 24D, Otto Manley and Marguerite Manley, h/w, John Manley, Single, and Edward Manley and Rosemarie Manley, h/w, in fee simple subject to any public utilities existing in the premises. The State's re-registered Fair Market Value of $21,300. was offered to and refused by the owners whose demand of $55,000. is considered excessive.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcels R24A, 24B and 24D in the place and instead of those previously filed.

Inasmuch as the sum of $20,000. was previously deposited in the Superior Court for Parcels 24A, 24B and 24D authority is now requested to deposit the additional sum of $1,300., making the total on deposit $21,300.

Authority is requested to dispose of the concrete block shed to the road contractor, by public auction, or by sealed bids. (April 13, 1970)

✓
Right of Way - Route 80

85 There is presented again the matter of condemnation of property on Route 80 (1953), Section 1F, Federal-aid Project I-80-1-(7), From Great Road to Pequest River, Parcel 17A, B, C, R17D, James C. Gibbs and Irene Gibbs, h/w.

Condemnation proceedings were previously authorized on December 27, 1966, at which time the State's registered fair market value of $31,000 was offered to and refused by the owners, whose demand of $63,500 was considered excessive.

Subsequently, an appraisal updating to the date of complaint resulted in the fair market value being re-registered in the amount of $41,500, which was offered to and refused by the owners who made no monetary demand. Authority is, therefore, requested to deposit an additional $10,500 with the Court, which when added to the amount of $31,000 previously deposited will make the total sum on deposit $41,500. (April 13, 1970)

✓
Right of Way - Route 295

86 There is presented again the matter of condemnation of property on Route 295, Section 7, Federal-aid Project I-295-2-(45), From Crosswicks Creek to Route 33, Parcel 73, John Palkovich & Louise Palkovich, h/w.

Condemnation proceedings were previously authorized on August 14, 1969 at which time the State's Registered Fair Market Value of $26,000 was offered to and refused by the owners whose demand of $32,000 was considered excessive.

Subsequently, an appraisal updating to the date of complaint resulted in the Fair Market Value being re-registered in the amount of $27,500, which was offered to and refused by the owners who refused to state a demand.

Authority is therefore requested to deposit an additional $1,500 with the Court, which when added to the amount of $26,000 previously authorized for deposit will equal the State's Re-Registered Fair Market Value. (April 13, 1970)

Appraisal Orders

90 There are presented the matter of certain appraisal orders previously approved as follows:

1969-A-242 was issued to Ralph Meloro for an updating to date of complaint. The appraiser was unable to deliver the addendum in time for trial purposes. It is therefore requested that this order be cancelled.

1969-A-406 was issued to Gerould Clark, Jr. for an updating. When the order was delivered it was returned as the appraiser was confined to the hospital for an indefinite time and could not furnish the report required. It is therefore requested that this order be cancelled.

1969-A-293 was issued to Gerould Clark, Jr. to reconsider his appraisal due to a map revision of the remainder and an engineering report which was being secured at the request of the Legal Division. Upon receipt of the engineering report and a pre-trial conference it was decided that the revision by Mr. Clark was not necessary. This was confirmed in writing by the appraiser. It is therefore recommended that this order be cancelled.

1963-A-445 was issued to Benjamin G. Vukicevich to appraise 3 parcels on Route 70, Section 3. Included was parcel 6 which appraisal completion was held in abeyance because of a drainage problem. This parcel has since been re-ordered and that portion of the previous order relating to parcel 6 was never cancelled. It is therefore requested that that portion of the order for parcel 6 be cancelled. **(April 13, 1970)**

Appraisal Orders

91 There is presented the matter of certain appraisal orders previously approved as follows:

1970-A-72 issued to Wm. Wiseman for an appraisal involving a case in condemnation. Continued negotiations have resulted in an agreement being approved and therefore the appraisal is not necessary. It is requested that this order be cancelled.

1969-A-608 issued to W. Orpen for an appraisal on the partial acquisition of a 1-family residence. Upon inspection of the house the appraiser realized he has had previous real estate dealings with this owner and declined the order due to a possible conflict of interest. It is requested that this order be cancelled.

1969-A-155 issued to Benjamin Vukicevich to appraise a class 3 commercial partial acquisition. Upon inspection of the property the appraiser discovered that he had extensive business dealings with the owner in insurance matters and asked to be excused from making the appraisal due to possible conflict of interest. It i srequested that this order be cancelled.

1968-A-649 issued to R. Meloro for an updating to date of complaint. The appraiser was unable to deliver the addendum in time for trial purposes. It is requested that this order be cancelled.

Right of Way - Route 18

94 There is presented here the matter of the Commissioners' award in the condemnation of property on Route 18, Section 10, Parcel 43, in the Borough of New Shrewsbury, owned by Adam Berry, his unknown heirs, devisees and personal representatives and his, their or any of their, successors in right, title and interest; et al.

At the hearing before the Commissioners, which was held on March 30, 1970 an award of $850.00 was granted. There was no testimony on behalf of the owners. The State's expert offered testimony in the amount of $850.00 for the partial taking of an unimproved parcel. Fair Market Value was re-registered on February 9, 1970 in the amount of $850.00. There was no deposit paid into Court.

The Sttate was represented by Fee Attorney Samuel S. Sagotsky.

It is recommended that the award in the amount of $850.00 be approved and paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; and the payment of the award is recommended as in the public interest. (April 8, 1970)

Right of Way - Route 80

95 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 3D, Parcels 6D and 6K owned by W. W. Howell; et al.

At the hearing before the commissioners, the property owner testified to a value of $400. Since the State's Fair Market Value was registered in the amount of $1,300, which is in excess of the amount the property owner had testified to, there was no contention or testimony by the State. Complaint was filed on March 19, 1966 and deposit was made into court on June 29, 1966 in the amount of $400. Fair Market Value was registered in the amount of $1,300. The commissioners returned an award in the amount of $400.

It is, therefore, recommended that the award of the commissioners in the amount of $400., be approved. (April 8, 1970)

Right of Way - Route 80

96 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 3D, Parcels 6F and 6L owned by W. W. Howell; et al.

At the hearing before the commissioners, the property owner testified to a value of $1,720. Since the State's Fair Market Value was registered in the amount of $1,800, which is in excess of the amount the property owner had testified to, there was no contention or testimony by the State. Complaint was filed on March 19, 1966 and deposit was made into court on June 28, 1966 in the amount of $1,350. Fair Market Value was registered in the amount of $1,800. The commissioners returned an award in the amount of $1,720.

It is, therefore, recommended that the award of the commissioners in the amount of $1,720., be approved.
(April 8, 1970)

Right of Way- Route 287

97 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 287, Section 7, Parcel 3R4 owned by Ernest J. Reisinger.

At the hearing before the commissioners the State offered testimony in the amount of $99,700 for the entire property. The property owners offered testimony in the amount of $114,100 if an access road is built to the remainder and $141,000 if no access road is built. The complaint was filed in this matter on April 10, 1967 and a deposit was made into court on the same date in amount of $42,500. The State's application to amend its complaint to include the entire property was denied by the Court and we would be required to institute a separate action for the landscape parcel included in the fair market value and hopefully, in the future, consolidate both actions.

Fair market value was established in the amount of $99,700 for the entire property. The Commissioners returned an award in the amount of $91,800 for so much of the property as is covered by the present complaint and, therefore, the award does not acquire the property in its entirety and for which the fair market value was fixed.

It is, therefore, recommended that the appeal taken from the commissioners award in the amount of $91,800 be approved.
(April 13, 1970)

Right of Way - Route 287

A judgment was entered against the State in the condemnation of property on Route 287, Section 10, Parcel 222 in the Township of Morris owned by Morris Dirdack; et al. The judgment was entered in the amount of $35,500.00.

At the trial before a Court with a jury the owner's witnesses offered testimony in the amount of $47,400.00. The State's expert offered testimony in the amount of $27,000.00 for the partial taking of an improved parcel. Fair Market Value was re-registered on May 13, 1969 in the amount of $27,000.00. There was a deposit paid into Court on September 26,1968 in the sum of $26,000.00.

The State was represented by Fee Attorney Herbert M. Strulowitz.

It is recommended that the verdict in the amount of $35,500.00 be approved and that payment in the sum of $9,500.00, being the amount over and above the deposit paid into Court, be paid together with lawful interest as computed by the Bureau of Titles. There are no grounds for appeal. (April 8, 1970)

The State was represented by Fee Attorney John W. Dailey.

Since the award exceeds the State's appraisal and testimony by $10,950.00, it is recommended that appeal be taken and a protective appeal has been filed. (April 8, 1970)
